Health in All Policies: Tools to Get You Started

- ▶ Healthy Community Framework
- ▶ Aspirational Goals
- ▶ Root Cause Mapping

Healthy Community Framework

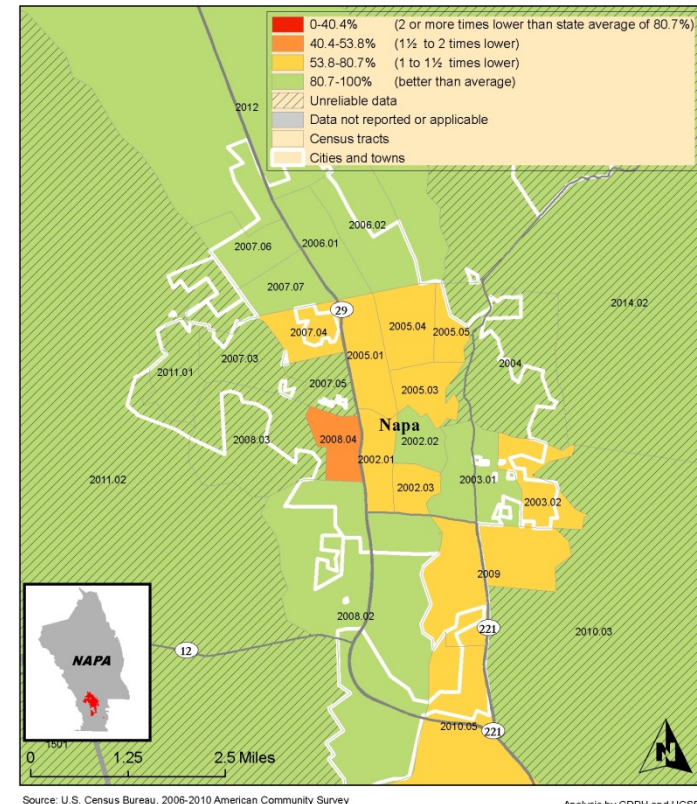

- ▶ Can be used with a range of stakeholders
- ▶ Used to bring people together
- ▶ Help people think upstream

Healthy Community Framework

- ▶ **Healthy Communities Indicators**
 - ▶ Identify a standardized, core set of valid indicators that define a healthy community
 - ▶ Identify methods to construct indicators at different geographic scales (e.g. census tract, zip code, city, county, etc.)

Map 2: High School or Greater Educational Attainment in the Population Aged 25 Years and Older, by Census Tract, Napa (City), 2006-2010

Aspirational Goals

- ▶ Opportunities to discuss social determinants of health as part of initial processes
- ▶ Building cohesive vision
- ▶ Simple language
- ▶ Sharing vision with others

Aspirational Goals: Examples

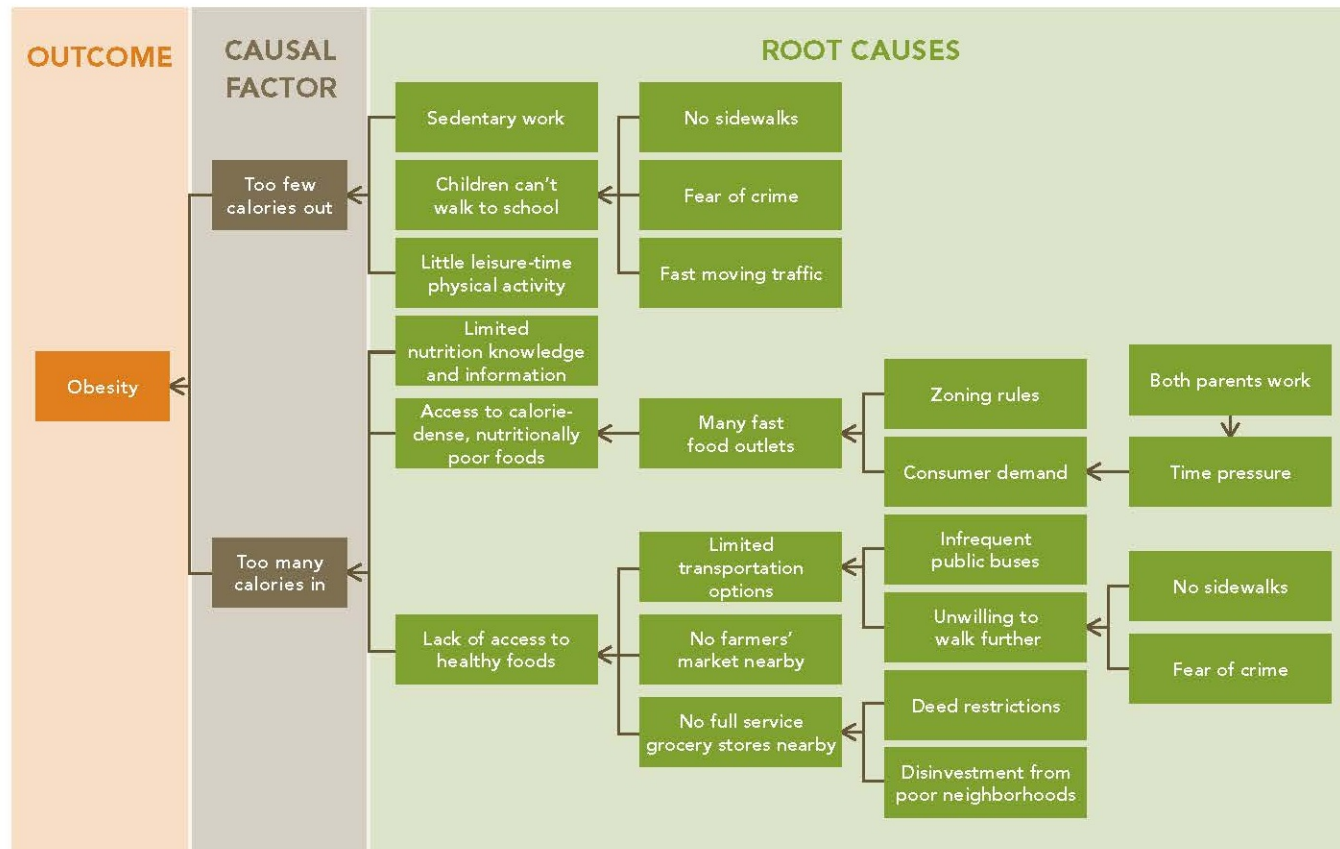

- ▶ All children and youth will receive high-quality child care and educational opportunities that foster and promote their ability to develop, be healthy, and achieve to their highest potential.
- ▶ All residents will have preparation and opportunities to engage in meaningful work with living wages and healthy, safe, and family-friendly working conditions.
- ▶ All residents will live in communities free of racism and discrimination.
- ▶ All residents will have opportunities for meaningful engagement and input into civic affairs and the policy decisions that impact their lives and futures.

Root Cause Mapping

- ▶ Opportunity to identify, illustrate, and discuss:
 - ▶ key factors contributing to community health problems and methods for action
 - ▶ opportunities for change
 - ▶ overlapping roles that sectors play
 - ▶ frequent root causes
 - ▶ contributing factors with higher / lower health impacts
- ▶ Opportunity to identify and involve partner agencies

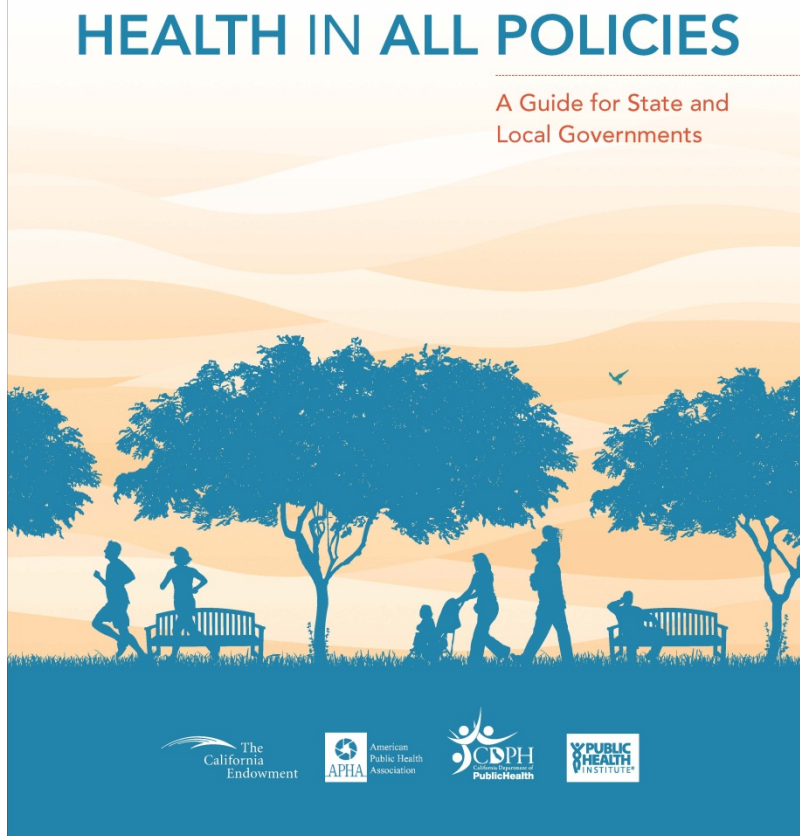

Root Cause Mapping: Example
